

RECORDED LESSONS Lectures on video in English (sold in four modules separately or as a whole)

YDL Chapter 1 History and design method	- Design Tools
YDL Chapter 2 Preliminary Design	- Preliminary Design
YDL Chapter 3 Calculation methods	- Hydrostatic Calculations
YDL Chapter 4 Hull geometry	- Lines Plan
YDL Chapter 5 Deck geometry	- Deck Plan
YDL Chapter 6 Hydrodynamics	- Resistance Calculations
YDL Chapter 7 Aerodynamics	- Sail Plan
YDL Chapter 8 Keel and Rudder	- Keel & Rudder Plan
YDL Chapter 9 Construction techniques and materials	- Structures Plan
YDL Chapter 10 Interior fittings	- Accomodation Plan
YDL Chapter 11 Engine and propeller	- Engine room plan
YDL Chapter 12 Sail plan, mast and balance	- Sail Plan
YDL Chapter 13 Weight list and CG	- Weight List File
YDL Chapter 14 Stability	- Stability Curve
YDL Chapter 15 Regulations, standards and certification	- Certification Plan
YDL Chapter 16 Design evaluation VPP	- VPP calculation File

Each chapter will consist of one or more recorded lessons of approximately one hour each. At the end of each chapter the student will be able to develop, as reported in the column in red, forms, calculations and drawings which at the end of the sixteen chapters will constitute the complete plans of a professional executive project.

The registered lessons can be purchased as whole at a discounted price of € 600 + VAT, otherwise in groups of four lessons at a cost of € 200 each
